AUTHOR INDEX TO VOLUME 9

This index lists, in alphabetical order, the names of authors of all articles, abstracts, and letters. Full citation is provided under the first author only, with reference made from joint authors. Abstracts and letters are distinguished from articles by the following code: A = abstract, L = letter. This index does not include Vol. 9, No. 5S, Supplement 1986, Abstracts of the VI International Congress on Neuromuscular Diseases, which has a separate index.

A

Aiello I, see Serra G
Alamo LA, see Lopez JR
Alamo L, Lopez JR, Papp L, Sreter FA: Simultaneous measurement by means of ion specific electrodes of free intracellular ionized calcium and magnesium in rabbit skeletal muscle, 472-L
Albani M, see Goebel HH
Albers BA, Wallinga-de Jonge W, Boon KL: Model study of single fiber action potentials: influence of cellular structure and membrane impedance, 566-A
Albers JW
see Bromberg MB
see Donofrio PD
Alessi AG, see Donofrio PD
Allen PD, see Lopez JR
Allen PD, Ryan JF, Jones DE, Mabuchi K, Virga A, Roberts J, Sreter F: Sarcoplasmic reticulum calcium uptake in cryostate sections of skeletal muscle from malignant hyperthermia patients and controls, 474-L
Allsop K, see Devenport J
Al-Rajeh S, see Al-Sulaiman A
Al-Sulaiman A, Al-Rajeh S, Iyer V: The influence of skeletal muscle reinnervation on experimentally induced myotonia, 364–366
Amaraneni P, see Meythaler JM
Ambler A, see Flink R
Anderson ME, see Kirsch GE
Andreassen S: Acquisition of motor unit potentials by pattern recognition techniques, 569-A
Angelo J, see Walker F
Aniansson A, Hedberg M, Henning G-B, Grimby G: Muscle morphology, enzymatic activity, and muscle strength in elderly men: a follow-up study, 585–591
Antel JP see Maselli RA
Antoni H, see Eickhorn R
Antoni L, see Eriksson P-O
Arancio O, see De Grandis D
Auger RG, see Litchy WJ

B

Baan GC, see Dekhuijzen AJ
Baker M
see Nilsson J
see Ravits JM
Ballard FJ, see Burgoyne JL
Baran EM, Mandel S, Rogers J, Bess H, Stagliano N, Kresch E: Lumbosacral radiculopathy: value of somatosensory evoked potentials, 661-A
Bardosi A, see Goebel HH
Barry DT, Gooch J: Evoked acoustic signals as a measure of contractile properties of muscles, 651-A
Bartkus C
see Maselli RA
see Towle VL
Baskin RJ, see Kawamoto RM
Bawa P, see Calancie B
Beckmann R, see Pernice W
Benga G, see Serbu AM
Benga I, see Serbu AM
Beric A, Campos RJ: Long-term follow-up of lumbosacral somatosensory evoked potentials in healthy subjects and in patients with chronic neurologic dysfunction, 664-A
Beric A, Dimitrijevic MR, Golik M, Sherwood AM: Evaluation of spasticity by isokinetic dynamometry and upper motor neuron electromyography, 664-A
Bess H, see Baran EM
Beydoun SR, see Gibbs MA
Binkhorst RA, see Sinkeler SP
Birdsong M, see Campbell WW
Bless JK, see Torbergsen T
Bodensteiner JB, Schochet SS: Facioscapulohumeral muscular dystrophy: the choice of a biopsy site, 544–547
Bolton CF
see Parkes T
see Zochodne DW
Bolton CF, Laverty D: A comparison of surface and needle electrode methods in recording compound sensory nerve action potentials, 659-A
Bolton CF, Parkes T, Thompson RT: Recordings of electricity, "sound," and force arising from human muscle, 652-A
Bonfiglioli S, see Merlini L
Boogaard JM, see van der Meché FGA
Book KL, see Albers BA
Borza V, see Serbu AM
Braakhekke JP, Joosten EMG, Stegeman DF: Surface EMG, McArdle's disease and exercise intolerance, 669-L
Braekken SK: Neurophysiological monitoring of therapeutical measures. Monitoring of neuropathies, 562-A
Bril V, see Chu JY
Bril V, Werb M: SFEMG in tibialis anterior muscles of patients with diabetic peripheral neuropathy, 563-A
Bromberg MB, Albers JW, Layton MW, McCune WJ: Transient Lambert-Eaton syndrome, 659-A
Brooke MH, see Heller SL
Brown R, see Ravits JM
Burgoyne JL, Fitzgerald A, Dahlenburg GW, Haslam RR, Tomas FM, Ballard FJ: Sequential urinary N^{τ}-methylhistidine to creatinine ratios in premature infants, 24–29
Busis NA, Logigian EL, Shahani BT: Elec-

trophysiologic assessment of a median nerve injury in the palm, 208–210

C

Calancie B, Bawa P: Limitations of the spike-triggered averaging technique, 78–83
Campbell JK, see Veilleux M
Campbell WW, Pridgeon RM, Sahni KS: Entrapment neuropathy of the ulnar nerve at its point of exit from the flexor carpi ulnaris muscle, 662-A
Campbell WW, Riaz G, Pridgeon RM, Birdsong M: Prolonged refractory period of transmission in acute demyelinating inflammatory polyneuropathy, 650-A
Campos RJ, see Beric A
Cantini A
see De Grandis D
see Serra G
Carpenter S, see Soza M
Carry MR, Ringel SP, Starcevich JM: Distribution of capillaries in normal and diseased human skeletal muscle, 445–454
Cashman NR, see Maselli RA
Chad DA, see Lippa CF
Cherington M, Happer I, Machanic B, Parry L: Surgery for thoracic outlet syndrome may be hazardous to your health, 632–634
Choi IS: Peripheral neuropathy following acute carbon monoxide poisoning, 265-L
Chokroverty S, Walters A, Manocha M: A physiologic analysis of myoclonus in restless legs syndrome, 665-A
Choksi R, see Heller SL
Chou SM, Mizuno Y: Induction of spheroid cytoplasmic bodies in a rat muscle by local tetanus, 455–464
Chu JY, Bril V, Humphrey JG: Accurate assessment of neuromuscular function in myasthenia gravis: correlation between clinical severity, single fiber electromyography, and antibody to acetylcholine receptor, 660-A
Clark MR, see Parkes T
Cobb L, see Pickett JB
Cohen L, see Nilsson J
Coleman RA, Stajich JM, Pact VW, Pericak-Vance MA: The ischemic exercise test in normal adults and in patients with weakness and cramps, 216–221
Comi G, Medaglini S, Galardi G, Comola M, Corbo M, Nemni R, Lazzarin A, Irato L, Moroni M: Subclinical neuromuscular involvement in acquired immune deficiency syndrome, 665-A
Comola M, see Comi G
Cooper BJ, De Lahunta A, Gallagher EA, Valentine BA: Nemaline myopathy of cats, 618–625
Coquet M, see Vital A
Corbo M, see Comi G
Cornblath DR: Disorders of neuromuscular transmission in infants and children, 606–611
Cornelio F, see Schiaffino S
Crain SM, see Peterson ER
Crisafulli CM, Garofalo M, Saadeh P, Maccabee P, Struppler A: An unusual presentation of botulism type B infection, 660-A
Cullen MJ
see Kelly FJ
see Watkins SC

D

Dahlenburg GW, see Burgoyne JL
Daube JR
see Harper CM
see Larson SM
see Levin KH
see McManis PG
Davis GR, see Ingram DA
De Grandis D, see Serra G
De Grandis D, Arancio O, Serra G: An electroneurographic response, 185-L
De Grandis D, Cantini A: Conduction velocity of single motor axon and its relation to other motor units parameters, 567-A
De Haan AF, see Sinkeler SP
Dekhuijzen AJ, van Koetsveld PA, Baan GC, Woittiez RD, Huijing PA: Motor endplate position of rat gastrocnemius muscle, 642–647
Dekleva A, see Navarro C
De Lahunta A, see Cooper BJ
Delpont E, see Desnuelle C
De Luca CJ, see Scala G
De Luca CJ, Jabre JR: A technique for the detection, decomposition and analysis of complex EMG signals, 572-A
Den H, Shanske S, DiMauro S: Targeting of lysosomal enzymes: N-acetyl-glucosamine-1-phosphotransferase during muscle development, 261–264
Desnuelle C, Renaud J-F, Delpont E, Serratrice G, Lazdunski M: [^{3}H] Nitrendipine receptors as markers of a class of putative voltage-sensitive Ca^{2+} channels in normal human skeletal muscle and in muscle from Duchenne muscular dystrophy patients, 148–151
Devenport J, Ziter F, Allsop K, Reis A: Drug trials in Duchenne dystrophy, 375-L
Dhoot GK: Selective synthesis and degradation of slow skeletal myosin heavy chains in developing muscle fibers, 155–164
Dick DJ, Gardner-Medwin D, Gates PG, Gibson M, Simpson JM, Walls TJ: A trial of flunarizine in the treatment of Duchenne muscular dystrophy, 349–354
DiMauro S, see Den H
Dimitrijevic MR, see Beric A
Dominici P, see Merlini L
Donaldson D, Evans OB, Harrison RW: Insulin binding in denervated muscle, 211–215
Dones I, see Schiaffino S
Donofrio PD, Alessi AG, Albers JW: Evolution of remote-effect polyneuropathy: serial electrodiagnostic studies, 664-A
Donoso JA, see Fernandez HL
Dorfman LJ, Forno LS: Multiple mononeuropathy and hypereosinophilia, 757-L
Downham DY, see Sjöström M
Driedger AA, see Zochodne DW
Dubrovsky AL, see Uchitel OD
Dyck PJ, see Low PA

E

Ecklund RE, see Streib EW
Eckmann KW, Shahani BT: Blink reflex studies: a test for documenting demyelinating neuropathy, 650-A
Ecob MS, see Sinclair CE
Edström L, Grimby L: Effect of exercise on the motor unit, 104–126
Edwards RHT, see Newham DJ
Eickhorn R, Haverkampf K, Antoni H: Disturbances of neural conduction in isolated frog nerves following exposure to strong electric fields, 313–318
Eisen A, Goodridge A, Hoirch M: Toward the single-stimulus somatosensory evoked potential, 654-A
Eisen AA: Noninvasive measurement of spinal cord conduction: review of presently available methods, 95–103
Elmore RS, see Oh SJ
Eriksson P-O, Stålberg E, Antoni L: Flexibility in motoneurone firing pattern, and anatomy of motor units in the human temporal and masseter muscles single fiber EMG, macro EMG and scanning EMG studies, 567-A
Evans M, see Nainzadeh NK
Evans OB, see Donaldson D

F

Falck B, Kuusela V: The interrelationship between MUP parameters—three new MUP factors, 570-A
Falck B, Lang H:
Effects of temperature on motor unit potentials, 573-A
Two channel recording of MUPs, 570-A
Fawcett PRW
Early detection of myopathies, 564-A
SFEMG in myasthenic syndromes, 567-A
Fazi M, see Houlden D
Fernandez HL, Stiles JR, Donoso JA: Skeletal muscle acetylcholinesterase molecular forms in amyotrophic lateral sclerosis, 399–406
Fernandez J
see Navarro C
see Trontelj J
Fisher MA
see Perlik SJ
see Rybicki RJ
Fitzgerald A, see Burgoyne JL
Fletcher TF, see Gallant EM
Flink R, Stålberg E, Ambler A, Rydin E: Early detection of Guillain-Barré syndrome, 564-A
Forno LS, see Dorfman LJ
Francis ME, see Tahmoush AJ
Friede RL, see Goebel HH
Fujiwara T, see Kaji R

G

Galardi G, see Comi G
Gallagher EA, see Cooper BJ
Gallagher TF, see Streib EW
Gallant EM, Fletcher TF, Goettl VM, Rempel WE: Porcine malignant hyperthermia: cell injury enhances halothane sensitivity of biopsies, 174–184, 648
Ganes T: Sensitive methods in root and plexus lesions, 565-A
Gardner-Medwin D, see Dick DJ
Garofalo M, see Crisafulli CM
Garrett WE Jr, see Moore GE
Gates PG, see Dick DJ
Gergely J, see Lopez JR
Gerrero MR, see Longo FM
Giancanelli M, Liguori M, Tessarolo D, Marcelli M: Detection of NAD^+-Malate dehydrogenase in human muscle, 756-L
Gibbs MA, Beydoun SR: Intrapartum maternal sacral plexopathy: clinical course, electrodiagnostic features, and outcome in five women, 661-A
Gibson M, see Dick DJ
Gilbert JJ, see Zochodne DW
Gilchrist JM, see Stewart CR
Girlanda P: Effect of ischemia on neuromuscular transmission/a single fiber EMG study, 574-A
Goebel HH, Bardosi A, Friede RL, Kohlschütter A, Albani M, Siemes H: Sural nerve biopsy studies in Leigh's subacute necrotizing encephalomyelopathy, 165–173
Goettl VM, see Gallant EM
Goldberg G, Schmier M: Alternating lateralized stimulation technique for performing somatosensory evoked potentials, 663-A
Goldspink DF, see Kelly FJ
Golik M, see Beric A
Gooch J, see Barry DT
Goodridge A, see Eisen A
Gorza L, see Schiaffino S
Graham J, see Nainzadeh NK
Granata C, see Merlini L
Green A, see Maselli RA
Greenberg MK, Hayes T, McVey AL: Segmental motor involvement in herpes zoster: an EMG study, 666-A
Greenstein M, see Rao KR
Gress DR, see Johns DR
Grimby G, see Aniansson A
Grimby L, see Edström L
Gronert GA, see Quinlan JG
Grunnet M, see Rao KR
Guggolz M, see Pernice W
Gutierrez A, see Gutmann L

SUBJECT INDEX TO VOLUME 9

This index gives the first author (in parentheses) and the first page of the article, abstract, or letter in which the indexed subject occurs. The reader is referred to the author index for the full title and the following code: A = abstract, L = letter. This index does not include Vol. 9, No. 5S, Supplement 1986, Abstracts of the VI International Congress on Neuromuscular Diseases, which has a separate index.

A

Acetylcholine receptor
congenital myasthenia (Lecky) 233
Acetylcholinesterase
amyotrophic lateral sclerosis (Fernandez) 399
Acid maltase deficiency
α-glucosidases in Japanese quails (Usuki) 537
Amyotrophic lateral sclerosis
electrophysiologic denervation (Uchitel) 748
muscle AChE forms (Fernandez) 399
Anti-AChR antibodies
in myasthenia gravis (Penn) 407

B

Blink reflex
neuropathy (Eckmann) 650-A
Book Reviews
Clinical Electromyography: Nerve Conduction Studies (Oh) 87
Late Effects of Poliomyelitis (Halstead and Wiechers) 476
Methods for Preparation of Media, Supplements, and Substrata for Serum-Free Animal Cell Culture (Barnes, Sirbasku, and Sato) 268
Methods for Serum-Free Culture of Neuronal and Lymphoid Cells (Barnes, Sirbasku, and Sato) 269
Neurogenetics: Principles and Practice (Rosenberg) 760
The Neuromuscular Junction (Brumback and Gerst) 87
Physiology & Biochemistry of Exercise (Shephard) 846
Botulism
type B (Crisafulli) 660-A

C

Calcium channels
voltage sensitive in muscle (Desnuelle) 148
Carpal tunnel syndrome
anomalous innervation (Larson) 662-A
false-positive tests (Redmond) 662-A
median-ulnar communcations (Gutmann) 319
Caveoli
sarcolemmal (Lee) 127
Creatine kinase
aerobic exercise effect (Nicholson)
plasma changes after eccentric and concentric contractions (Newham) 59
screening for Duchenne muscular dystrophy in infants (Scheuerbrandt) 11
Creatine kinase—plasma
Duchenne muscular dystrophy (Pernice) 333

E

Eaton-Lambert syndrome
single fiber EMG (Oh) 661-A
Electromyography
automatic analysis of EMG interference pattern (Nandedkar) 431, 491,571-A
automated turns analysis (Fisher) 667-A
carrier detection in Duchenne muscular dystrophy (Wierzbicka) 571-A
central cord syndrome (Houlden) 654-A
central-peripheral weakness and fatigue (Stalberg) 565-A
comparison of isokinetic dynamometry and upper motor neuron EMG (Beric) 664-A
computerized fiber density (Salmi) 572-A
detection, decomposition, and analysis of complex signals (De Luca) 572-A
diabetic thoracic radiculopathy (Streib) 548
Duchenne's early electrodiagnosis (Nelson) 666-A
early detection of myopathies (Fawcett) 564-A
early development (Howard) 653-A
extensor digitorum brevis manus (McManis) 667-A
familial increased insertional activity (Wright) 666-A
herpes zoster (Greenberg) 666-A
in spinal muscular atrophy (Hausmanowa-Petrusewicz) 37
interference pattern simulation (Nandedkar) 423
intrapartum maternal sacral plexopathy (Gibbs) 661-A
McArdle's disease and exercise intolerance (Braakhekke) 669
metrizamide and iopamidol (Nelson) 666-A
motoneuron firing pattern and anatomy of motor units in human masticatory system (Eriksson) 567-A
motor amplitude measurement errors (Pickett) 758-L
motor units, spike triggered averaging (Calancie) 78
myoclonus in restless legs syndrome (Chokroverty) 665-A
polymyositis (Lang) 564-A
refractory period in peripheral neuropathy (Mechelse) 565-A
simulation and analysis of the EMG interference pattern (Nandedkar) 486
Electromyography, single fiber
cellular structure and membrane impedance (Albers) 566-A
diabetic peripheral neuropathy (Bril) 563-A
diagnosis of radiculopathies (Kountouris) 565-A
digital signal processor (Schofield) 569-A
Eaton-Lambert syndrome (Oh) 661-A
effect of cholinesterase inhibitors in myasthenia gravis (Massey) 660-A
effect of firing rate on neuromuscular jitter (Sanders) 566-A
fiber density (Kountouris) 563-A
ischemia effect on neuromuscular transmission (Girlanda) 574-A
jitter measurement (Salmi) 569-A
jitter study (Trontelj) 568-A
lung cancer (Torbergsen) 565-A

motor endplate distribution (Navarro) 567-A
motor neuron disease (Schwartz) 565-A
myasthenia gravis (Chu) 660-A; (Sanders) 809
myasthenic syndromes (Fawcett) 567-A
neuromuscular fatigue (Ingram) 566-A
neurophysiological monitoring in myasthenia gravis (Sanders) 562-A
pelvic floor disorders (Swash) 567-A
root and plexus lexions (Ganes) 565-A
Electrophysiological studies
autonomic function (Ravits) 657-A
autonomic function in Parkinson's disease (Johns) 657-A
median nerve injury in the palm (Busis) 208
median-ulnar communication in carpal tunnel syndrome (Gutmann) 319
monitoring during surgery (Phillips) 655-A
neuromyotonia, normocalcemic tetany, and thymoma (Litchy) 651-A
pseudoanterior interosseous syndrome (Katirji) 267-L
spinal cord conduction (Eisen) 95
superficial peroneal nerve (Levin) 322
Encephalomyelopathy
nerve pathology (Goebel) 165
subacute nectrotizing (Goebel) 165
Evoked potentials
biphasic stimulation (Nilsson) 659-A
Evoked potentials, somatosensory
Brown-Sequard syndrome (Fisher) 656-A
central cord syndrome (Houlden) 654-A
diagnosis of thoracic outlet syndrome (Veilleux) 655-A
in diabetic neuropathy (Towle) 665-A
lateralized stimulation technique (Goldberg) 663-A
lumbosacral (Beric) 664-A
lumbosacral radiculopathy (Baran) 661-A
scoliosis (Harper) 656-A
single stimulus (Eisen) 654-A
spinal cord monitoring (Nainzadeh) 655-A
spinocerebellar degeneration (Kaji) 655-A
Exercise
creatine kinase in serum (Nicholson) 000
motor unit effects (Edström) 104

F

Fisher syndrome
1A afferent conduction with ataxia (Weiss) 327
F-response
variations (Serra) 572-A
F-waves
central motor conduction times (Robinson) 652-A

G

Gangliosides
diabetic neuropathy (Horowitz) 531, 845-L
Guillain-Barré syndrome
early detection (Flink) 564

H

H-reflex
recording sites (Hayes) 662-A

L

Lambert-Eaton myasthenic syndrome
associated motor neuropathy (Subramony) 64
passive transfer immunoglobulin (Kim) 523
transient (Bromberg) 659-A
verapamil effect (Krendel) 519
Lysosomal enzymes
regulation (Den) 261

M

Malignant hyperthermia
ankle, dorsiflexor twitch (Quinlan) 658-A
calcium concentration (Lopez) 85-L
halothane induced contractures (Suarez-Kurtz) 47
halothane sensitivity enhanced by injury (Gallant) 174, 648
SR calcium uptake (Allen) 474-L
Motor endplate
position of gastrocnemius muscle (Dekhuijzen) 642
Motor neuron disease
clinical and electrical measurements (Tahmoush) 653-A
focal (Hanson) 654-A
Motor units
action potentials, automated measuring method (Stewart) 667-A
analysis of F-response (Serra) 572-A
common drive (Jabre) 667-A
conduction velocity of single motor axon (De Grandis) 567-A
exercise effects (Edström) 104
interrelationship between motor unit potential parameters (Falck) 570-A
pattern recognition (Andreassen) 569-A
spike-triggered averaging technique (Calancie) 78
synchronization of discharges (Scala) 668-A
temperature effect (Falck) 573-A
two channel recording (Falck) 570-A
Muscle
AChE forms in amyotrophic lateral sclerosis (Fernandez) 399
antibodies in myasthenia gravis (Penn) 407
β-receptors in muscle slices (Watson-Wright) 416
calcium and magnesium concentrations, intracellular electrodes (Alamo) 472-L
calcium paradox (Soza) 222
capillaries distribution (Carry) 445
corticosteroid effects (Kelly) 1
detection of NAD^+ – malate dehydrogenase (Giacanelli) 756-L
electrical stimulation (Valenčič) 612
evoked acoustic signals (Barry) 651-A
exertional myalgia (Coleman) 216
exertional myalgia-ischemic exercise test (Sinkeler) 731
exertional myalgia-verapamil (Lane) 635
fetal myosin in Duchenne dystrophic muscle (Schiaffino) 51
fiber type, age (Aniansson) 585
glucocorticoids in hypokinesia (Jaspers) 554
glucose uptake in denervated muscle (Shoji) 69
glucose uptake, stretch and starvation effects (Shoji) 144
glycogen storage, animal model (Kuwabara) 138
halothane induced contractures (Suarez-Kurtz) 47
halothane sensitivity by injury (Gallant) 174, 648
human cardiac troponin-C (Roher) 73
immobilization-glucocorticoid effects (Jaspers) 554
inosine monophosphate response (Heller) 515
ischemia (Maki) 394
ischemic exercise test (Coleman) 216
lysosomal enzyme regulation (Den) 261
morphology, enzymatic activity and muscle strength in elderly men (Aniasson) 585
protein synthesis, corticosteroid effects (Kelly) 1
recording muscle sound (Parkes) 656-A
regeneration Fukuyama congenital muscular dystrophy (Terasawa) 465
satellite cells, Fukuyama type congenital muscular dystrophy (Terasawa) 465
satellite cells in diseased muscle (Watkins) 724
sound activity (Bolton) 652-A
SR calcium uptake in malignant hyperthermia (Allen) 474-L
stiffness and electrical activity in paramyotonia congenita (Ricker) 299
stretch and starvation effects on muscle glucose uptake (Shoji) 144
temperature effect on muscle twitch (Torbergsen) 574-A
polymyositis-EMG (Lang) 564-A
tissue culture studies (Witkowski) 191, 283
urinary excretion of N^{τ}-methylhistidine (Burgoyne) 24
verapamil in exertional muscle pain (Lane) 635
Muscle denervation
electrical stimulation (Valenčič) 612
glucose uptake (Shoji) 69
insulin binding (Donaldson) 211
sodium channels (Kirsch) 738
Muscle fatigue
membrane excitation and impulse propagation (Milner-Brown) 367
Muscle fibers
propagation velocity and action potential amplitude (Trontelj) 568-A
recovery functions (Mihelin) 568-A
Muscle fiber types
distribution within fascicle (Sjöström) 30
Muscle glycogen storage disease
acid maltase (Usuki) 537
McArdle's disease (Braakhekke) 669

Muscle glycolysis
^{31}P-NMR studies (Kuwabara) 138
Muscle membrane
ionic channels (Ruff) 675, 767
sodium channels (Kirsch)
Muscle-myosin
slow skeletal myosin heavy chain (Dhoot) 155
Muscle sarcolemma
caveolae (Lee) 127
Muscular dystrophy
Emery-Dreifuss (Merlini) 481
facioscapulohumeral-biopsy site (Bodensteiner) 544
muscle regeneration in Fukuyama congenital muscular dystrophy (Terasawa) 465
Muscular dystrophy-avian
sarcolemmal caveolar changes (McLean) 501
sarcoplasmic reticulum (Kawamoto) 248
Muscular dystrophy-Duchenne
calcium channels, voltage sensitive (Desnuelle) 148
carrier detection by EMG
creatine kinase activities (Pernice) 333
creatine kinase screening in infants (Scheuerbrandt) 11
decreased water permeability of erythrocytes (Serbu) 243
dipeptidyl peptidase I in cultured fibroblasts (Sinclair) 152
drug trials (Devenport) 375-L
fetal myosin immunoreactivity (Schiaffino) 51
flunarizine trial (Dick) 349
muscle innervated in vitro (Peterson) 787
reduced adhesiveness of nonmuscle cells (Jones) 84-L
satellite cells (Watkins) 724
tissue culture studies (Witkowski) 191, 283
Muscular dystrophy—hamster
myoblast and fibroblast growth in culture (Klamut) 597
Muscular dystrophy—myotonic
hypersomnolence (van der Meché) 341
myosin expression (Moore) 355
serum carbonic anhydrase III (Mokuno) 257
Myasthenia gravis
anti-acetylcholine receptor antibody studies (Sterz) 306
anti-AChR antibodies (Penn) 407
effect of cholinesterase inhibitors on single fiber electromyography (Massey) 660-A
neurophysiological monitoring (Sanders) 562-A
single fiber electromyography (Chu) 660-A; (Fawcett) 567-A; (Sanders) 809
Myasthenia gravis—congenital
acetylcholine receptors (Lecky) 233
heterogeneity (Lecky) 233
Myasthenia like syndrome
procainamide induced (Oh) 670
Myasthenic syndrome
associated motor neuropathy (Subramony) 64
single fiber electromyography (Fawcett) 567-A
verapamil effect (Krendel) 519
Myoadenylate deaminase deficiency
ischemic forearm test (Sinkeler) 731
Myosin
fetal, in Duchenne muscular dystrophy (schiaffino) 51
in myotonic dystrophy (Moore) 355
slow, heavy chain (Dhoot) 155
Myopathy
in critical illness (Zochodne) 652-A
muscle changes in experimental ischemic myopathy (Maki) 394
myoedema and electrically silent muscle contractions (Rao) 663-A
nemaline myopathy in cats (Cooper) 618
spheroid cytoplasmic bodies (Chou) 455
Myotonia
nerve effect (Al-Sulaiman) 364

N

Nerve
axon loss lesions (Levin) 658-A
conduction velocity changes (Levin) 658-A
electrical and magnetic stimulation (Murray) 652-A
endoneurial sodium accumulation in galactosemic rat (Mizisin) 440
regeneration in diabetes (Longo) 385
sweat gland reinnervation (Navarro) 658-A
temperature dependence (Mayr) 573-A
temperature effect (Lang) 573-A
ulnar, entrapment neuropathy (Campbell) 662-A
Nerve action potential
antidromic sensory nerve studies (Meythaler) 658-A
needle electrode methods (Bolton) 659-A
Nerve conduction
central cord syndrome (Houlden) 654-A
in AIDS (Comi) 665-A
ischemia effects (Nielsen) 574-A
median nerve injury in the palm (Busis) 208
superficial peroneal nerve (Levin) 322
transient focal conduction block in ischemia (Parry) 345
Nerve entrapment
pseudo-anterior interosseous nerve syndrome (Katirji) 267-L
Nerve ischemia
focal conduction block (Parry) 345
Nerve physiology
motor axon loop (De Grandis) 185-L; (Roth) 186-L
nerve conduction following exposure to strong electric fields (Eickhorn) 313
Nerve sensory
blink reflex (Soliven) 659-A
Neuromuscular disease
clinical trials (Devenport) 375-L
Neuromuscular junction
monitoring of stimulation during anesthesia (Sulg) 571-A
Neuromuscular transmission
atypical defect in motor neuron disease (Tahmoush) 663-A
ischemia effect (Girlanda) 574-A
neurogenic jitters (van der Most van Speyk) 569-A
pediatric disorders (Cornblath) 606
temperature effect (Stålberg) 573-A
Neuropathy
acrylamide (Kaji) 650-A
acute carbon monoxide poisoning (Choi) 266-L
acute inflammatory, Fisher syndrome (Weiss) 327
acute inflammatory polyneuropathy (Campbell) 650-A
blink reflex (Eckmann) 650-A
classification (Sabin) 711
common peroneal mononeuropathy (Wilbourn) 825
compresssive neuropathy in childhood (Jones) 720
congenital hypomyelinating (Walker) 651-A
cryoglobulinemia (Lippa) 626
diabetic, autonomic involvement (Idiaquez) 665-A
diabetic, compound muscle action potentials (Olney) 651-A
diabetic, ganglioside therapy (Horowitz) 531, 845-L
diabetic, nerve regeneration (Longo) 385
diabetic, reflex depression (Olney) 664-A
diabetic, single fiber electromyography (Bril) 563-A
diabetic, somatosensory evoked potentials (Towle) 665-A
diabetic, sympathetic skin response (Maselli) 657-A
diabetic, vagal function (Low) 592
entrapment, at the ulnar nerve (Campbell) 662-A
evoked electrodermal response (Van den Bergh) 656-A
galactose, endoneurial sodium accumulation (Mizisin) 440
idiopathic lumbosacral and brachial plexus neuropathy (Marra) 661-A
in Leigh's Disease (Goebel) 165
multiple mononeuropathy and hypereosinophilia (Dorfman) 757-L
neurophysiological monitoring (Braekken) 562-A
polyneuropathy, serial conduction studies (Donofrio) 664-A
refractory period (Mechelse) 565-A
thalidomide (Lagueny) 837
vacuolar (Vital) 471-L
N^{τ}-methylhistidine
urinary excretion (Burgoyne) 24

P

Paramyotonia congenita
muscle stiffness and electrical activity (Ricker) 299
Periodic paralysis
exercise test (McManis) 704
hyperkalemic, lack of cold sensitivity (Subramony) 700
Poliomyelitis
postpoliomyelitis muscular atrophy (Maselli) 653-A
reinnervation (Weichers) 653-A

Progressive lateral sclerosis
newsletter (Levy) 266-L
Protease
dipeptidyl peptidase I (Sinclair) 152

S

Sarcoplasmic reticulum
in normal and dystrophic chicken (Kawamoto) 248
Spinal cord
conduction (Eisen) 95
Spinal muscular atrophy
electromyographic findings (Hausmanowa-Petrusewicz) 37

T

Tetanus
effects on muscle (Chou) 455
Thoracic outlet syndrome
complications of surgery (Cherington) 632
somatosensory evoked potentials (Veilleux) 655-A
Troponin C
amino acid sequence (Roher) 73
